The importer asked us not to tell the names of the makers, but their stamp is on the dishes and their names are not hard to guess, as you read this announcement. Think of the most famous and the very best French potteries and the king of English china makers, and you have the secret.

Other fine importations are in the sale as well, including sets of that rarely beautiful Swedish china now so much in vogue, exquisitely wrought, artistically decorated.

Dozens and dozens of designs

We could not begin to suggest or describe them all. Fine sets decorated in encrusted gold, in solid bands of color overlaid with gold lace, bands of color combined with bands of gold. Floral designs—wreaths, broad bands, all-over designs, delicate in coloring, vivid and rich in effect—their name is legion.

The tables, Thursday, will show the samples and there will be plenty of good, prompt service on the spacious floor of the China Store, which can take care of hundreds of customers without crowding.

English Luggage

At Less than London prices and averaging Less than Half the prices in America

This is an extraordinary sale coming at an extraordinary time, just when thousands of people are packing to go abroad on the Nieuw Amsterdam, Olympic, Celtic, President Taft, George Washington, Homeric, Baltic, Aquitania and other steamers, all of which go out within the next two weeks.

Instead of waiting until you get to London, where the world's finest luggage is to be had, you may now get this genuine English-made luggage in New York at less than London prices, saving the duty, and having the use of your suit case or bag on the way over.

Such an opportunity never came to New York before. It comes only now because a famous London store (name stamped on each piece—you will recognize it at once) has closed out to us the samples from which it took orders from American houses. All pieces are in perfect condition.

All bags are made with welted seams and double handles. All suit cases are equipped with two English slide lever locks.
